Introduction

AL HATHBOOR GROUP

About- Us:

The story of The Al Hathboor Group is built on the vision and foresight of its founder, the late Saif Obaid Al Hathboor. Beginning with a specialized textile business in 1954, he continuously explored new opportunities, laying the foundation for a diversified and dynamic business empire.

As the UAE evolved, so did the Group. Its first expansion was into Air Conditioning and Refrigeration, followed in the 1970s by a Motor Spare Parts venture and one of the UAE's earliest supermarkets. The founder's strategic vision and business acumen fueled rapid growth, catering to the rising industrial and commercial demands across the UAE and the Gulf.

By 1982, the Group's expanding operations required a cohesive structure, leading to the formal establishment of

The Al Hathboor Group. Today, under the leadership of Chairman Mr. Abdulla Saif Al Hathboor, the Group has grown into one of the region's foremost business houses.

With a diversified portfolio spanning Electrical, Mechanical, Retail, Laundry, F&B, Hospitality Products & Services, Equipment Sales, and Technology Solutions, Al Hathboor Group continues to innovate and deliver value across multiple industries.

Driven by a commitment to excellence and innovation, the Group continuously adapts to evolving market trends and customer needs. Leveraging decades of experience, cutting-edge technology, and a strong regional presence, The Al Hathboor Group is focused on creating sustainable growth and long-term value for its partners, clients, and communities across the Middle East.
